

## WE GO BEYOND PAPER

PhD in user interface with 3 patents and 2 peer-reviewed papers. Enables unique document and note manipulation methods like Pinch Search, Pinch Collapse, and Pinch Highlights. Features include Select, Drag excerpts, Draw and Drag excerpts, Ink Links, Multi Document View, and Multi-Monitor Support.

## UNIFIED DESKTOP

Supports user-defined folders for thousands of documents, multiple workspaces, multi-monitor support, real-time sync, and collaboration for writing anywhere.

## PAPER DOESN'T CONNECT CONTENT AND IDEAS

Transforms your computer into a Second Brain by replicating and documenting brain functions, creating connections between materials using features like Ink links, Excerpts, and Mind maps.

**Traditional workflows involve using multiple fragmented and often generic tools.**

1. Gathering and Organizing from: Document Manager, eDiscovery, Email,

2. Reading and annotating: Our PDF Reader, will save you

3. Copying and outlining

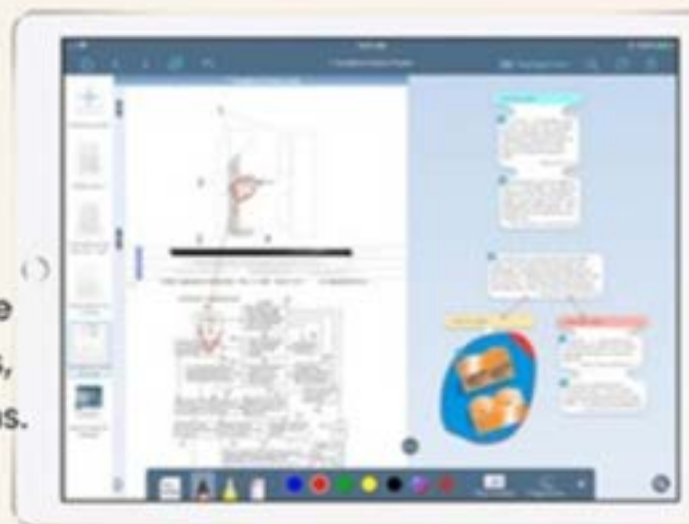

4. Collaborating with colleagues

5. Repeat process until ready for

# MOST TRY TO EMULATE PAPER
